

C120 series

2-channel PCI Express GigE Vision Frame Grabber

feature

- Adopt PCI ExpressBus interface design
- Based on Intel i210/i211 Network Controller
- Supports 10/100/1000M speeds, full-duplex and half-duplex.Adaptive
- Supports Wake-on-LAN
- More efficient data transmission and smaller footprint
- 0°C to Operating temperature +70°Cscope
Supports image acquisition in extreme environmentsNo frame drops
- Supports Windows 7/8/10. Linux system

Introduction

Gigabit speed

Based on Intel The i210/i211 network controller supports 10/100/1000 Mbps speeds, full-duplex and half-duplex intelligent detection and adaptive operation. Transmission rate Up to 1Gb/s It is to achieve gigabit networks Ideal for connecting to the desktop and improving network performance.

PCI-E interface

Supports next-generation PCI The Express interface offers more efficient data transfer, smaller footprint, and full compatibility with PCI-E (16x/8x/4x).

Easy to install and highly compatible

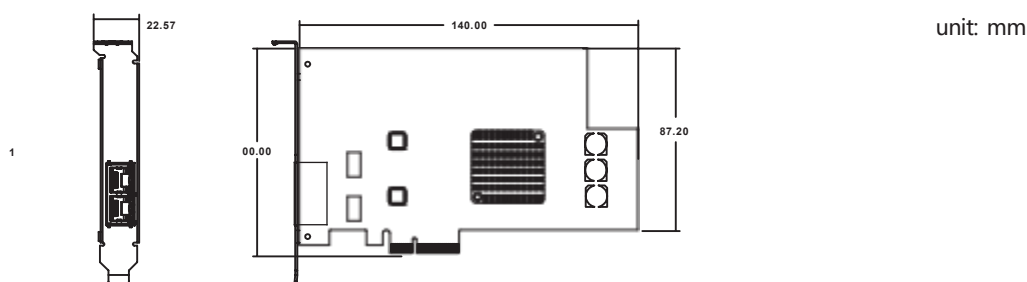

It's easy to use; simply plug it into a PCI-E slot and install the appropriate driver. It's compatible with most mainstream operating systems. For example, Windows 7/8/10 and Linux systems.

Specification

C110 series

Specifications	PCI Express x4
Ethernet Interface	2 x 10/100/1000M bps RJ45 Network Interfaces Full-duplex, half-duplex intelligent detection and adaptation
Chip	Intel i210/i211
Protocol Standards	Compatible with IEEE 802.1P/ 802.1Q/802.3 10Base-T/802.3u 100Base-TX/802.3ab 1000Base-T
Compatible Slots	PCI-E 16x/8x/4x (PCIe x2/x1 support requires rear opening connector)
Network Environment	Gigabit and below networks
Indicator Lights	ACT: This indicator flashes when data is being sent or received on this port LINK: This indicator is solid when the link is normal
Operating Environment	Operating Temperature: 0°C ~ +70°C Storage Temperature: -40°C ~ +70°C Humidity: 5% to 90% Relative Humidity, non-condensing
System Support	Windows 7/8/10, Linux
Product Dimensions	140 mm x 100 mm (Width x Length)

Dimensions
